

INLS 513-001 RESOURCE SELECTION & EVALUATION (3 credit hours)

Fall Semester 2013, Wednesdays 12:30-3:15, Room 208 Manning Hall

Instructor: Mary Grace Flaherty

Office Phone: 962-5982; Email: mgflaher@email.unc.edu

Office hours: Room 204 Manning Hall, Thursday 10-11:45 a.m. or by appointment

Course Description:

This course covers the identification, provision, and evaluation of resources to meet primary needs of clientele in different institutional environments.

We will explore the:

- Defining characteristics of collections
- Challenges of defining the scope of collections
- Development of collections that communities of users value
- Sustainability of collections
- Legal and ethical considerations associated with selecting, evaluating, collecting, managing, and providing access to information and artifacts in a variety of formats

Collections are considered dynamic entities, so this class will take into account the “lifecycle” of information – from conception and creation, to selection and storage, to access and evaluation, to preservation and long-term considerations, as well as weeding or deselection. Emerging issues in collection development, such as digitization projects, self-archiving behaviors, institutional repository development, and collaborations between different types of organizations will also be addressed.

Course Objectives:

By the end of the course, it is expected that students will be able to:

- Critique some of the literature on collections and collecting, from a variety of perspectives and in a variety of settings, in order to understand the major questions, issues, consequences, model, philosophies, and other forces in play.
- Analyze and evaluate written collection development policies with sensitivity toward the social contexts in which the collections are situated.
- Articulate similarities and differences between the collecting activities of different types of cultural heritage institutions (e.g. public, academic, school and special libraries; archives and museums).
- Apply a set of heuristics and principles for approaching collection development and management in professional situations (e.g. use of selection aids and statistics as tools).
- Reflect upon attitudes and practices in order to assess their performance as developing professionals.

Grading:

Assignment 1 – 10%
Assignment 2 – 15%
Assignment 3 – 15%
Assignment 4 – 10%
Assignment 5 – 10%
Assignment 6 – 20%
Class Participation – 20%

Based on the UNC Registrar Policy for courses (<http://regweb.unc.edu/resources/rpm24.php>) semester grades will be H, P, L or F for graduate students. Grades for individual assignments will be based on points obtained on each assignment, weighted by percentages listed above, to calculate final grades. Numerical grades for the course as a whole will roughly translate into the following letter grades:

98.0-100% = H (High Pass)

80.0-97.9% = P (Pass)

65.0-79.9% = L (Low Pass)

< 64.9% = F (Fail)

If you have any concerns or questions about your grades (or any other issues) at any time, please feel free to discuss with me.

Students at the School of Information and Library Science are expected to follow the University of North Carolina at Chapel Hill Honor Code. Essentially, the Honor Code states that all students shall “refrain from lying, cheating, and stealing... all students are expected to actively support and protect the ideals of the Honor System at Carolina. These responsibilities must not only be met, but exceeded, for Carolina’s Honor System to continue to thrive.” For more information, see: <http://honor.unc.edu/>. For all assignments, students are required to submit original work and to give credit through citation to any sources/resources they used.

If you feel you may need an accommodation based on the impact of a disability, please contact me privately to discuss your specific needs. Also, please contact UNC Disability Services at (919) 962-8300 or disabilityservices@unc.edu at the Student and Academic Services Buildings, located in Suite 2126, 450 Ridge Road, to formally coordinate accommodations and services.

Diversity Statement

In support of the University’s diversity goals and the mission of the School of Information and Library Science, SILS embraces diversity as an ethical and societal value. We broadly define

diversity to include race, gender, national origin, ethnicity, religion, social class, age, sexual orientation and physical and learning ability. As an academic community committed to preparing our graduates to be leaders in an increasingly multicultural and global society we strive to:

- Ensure inclusive leadership, policies and practices
- Integrate diversity into the curriculum and research
- Foster a mutually respectful intellectual environment in which diverse opinions are valued
- Recruit traditionally underrepresented groups of students, faculty and staff
- Participate in outreach to underserved groups in the State.

The statement represents a commitment of resources to the development and maintenance of an academic environment that is open, representative, reflective and committed to the concepts of equity and fairness.
